Uinta Basin Air Quality Issues and UO FIP 2-9-2017.docx

Paul – I'll be at this meeting, but am adding you since I'm going to be out of the office 2/15-2/24. Thought you might want to join as a way of catching up on this matter before I leave. But please note in any case that OGC's Rick Vetter is available for legal help on these issues while I'm gone.
